

What is claimed is:

1. A pharmaceutical composition which comprises a mixture comprising:
a substance selected from the group consisting of 2,2-dichloro-12-(4-chlorophenyl)-
dodecanoic acid, a salt thereof, and an ester thereof, and
croscarmellose sodium.

2. The pharmaceutical composition according to claim 1 in which a mixing
ratio of the substance selected from the group consisting of 2,2-dichloro-12-
(4-chlorophenyl)-dodecanoic acid, the salt thereof, and the ester thereof, and the
croscarmellose sodium is from 10:1 to 1:20.

3. A stabilizer for a substance selected from the group consisting of
2,2-dichloro-12-(4-chlorophenyl)-dodecanoic acid, a salt thereof, and an ester thereof,
which comprises croscarmellose sodium.

4. A method for stabilization of a substance selected from the group
consisting of 2,2-dichloro-12-(4-chlorophenyl)-dodecanoic acid, a salt thereof, and an
ester thereof, which comprises the step of preparing a mixture comprising the
substance selected from the group consisting of 2,2-dichloro-12-(4-chlorophenyl)-
dodecanoic acid, the salt thereof, and the ester thereof, and croscarmellose sodium.
